University commissions traffic study

Associated Engineering Services Limited of Edmonton has begun an extended study of parking and traffic at the University, the Health Sciences Centre, The University of Alberta Hospital and other facilities in the greater campus area. The study, which will be completed in March 1968, will result in proposals for coping with problems resulting from the estimated population increase at these institutions in the near future.

The firm will review previous reports to the University and the Health Sciences Centre, and establish liaison between University planning and development officials, design architects and planning consultants, and City of Edmonton engineers and Edmonton Transit System officials.

The final report will discuss major peripheral circulation routes, modes of travel,

location and capacity of transit terminals, and controlled access roads. It will also investigate the efficiency of alternate modes of travel, such as the park-and-ride system and rapid transit systems.

Several stages in the development of an effective traffic and parking system will be outlined, with cost estimates for each stage. Evening parking facilities for both students and staff, as well as others entering the University area, will be examined.

Display of costumes from Mexico

The Department of Anthropology is exhibiting costumes worn by various Mayaspeaking Indians, on the first floor of the Henry Marshall Tory Building. The costumes illustrate cultural diversity within a small geographical area.

Staff news

Professor Henry H. Mamet, Director of Radio and Television, has been asked to serve on a national committee to organize a new association, the Canadian Association of Educational Broadcasters. The new association will serve the professional interests and needs of Canadians working in educational radio and television.

Dr. L. D. Nelson, Professor of Elementary Education, presented two papers on the introduction of mathematical concepts at the grade school level to the California Mathematics Council in Palm Springs earlier this month.

Dr. Roger G. A. Stretch, Associate Professor of Psychology, was elected a Fellow of the British Psychological Society on December 4 in London.

Dr. Kellogg V. Wilson, Associate Professor of Computing Science and Psychology, presented a colloquium on "Intelligence and Memory" by special invitation at York University, Toronto, on December 11.

Dr. Bernard Schwartz, Associate Professor of Art Education, has written a report on methods of using original art works in education. The report, which will be published and distributed by the National Gallery, is based on a project undertaken by Dr. Schwartz and the staff of the Educational Division of the National Gallery of Canada, Ottawa, with children's art classes last summer.

Dr. Joseph R. Royce, Professor of Psychology and Director of the Centre for Advanced Study in Theoretical Psychology, spoke to the annual meeting of the Society of Multivariate Experimental Psychologists in San Francisco recently.

Symposium held

The University of Alberta played host to an international symposium on cold thermogenesis on November 24 and 25. Dr. J. Hayward, Assistant Professor of Zoology, and Dr. A. J. F. Webster, Assistant Professor of Animal Science, organized the conference, which for the first time included speakers from France and the United States.

The conference was supported by funds from the Medical Research Council and National Research Council of Canada and by the University.

Agricultural policy makers confer here

A short conference involving the chief policy makers in North American agriculture was held December 19 and 20, under the auspices of the Department of Agricultural Economics.

The keynote speaker was Professor Earl O. Heady, Executive Director of the Centre for Agriculture at Iowa State University and Chairman of the President's Committee on Agricultural Policy in the United States. Professor Heady is among the most influential agriculturalists in the world.

Other speakers included David Kirk, Chief Economist of the Canadian Federation of Agriculture; Quentin West, Director of the Foreign Regional Analysis Division of the United States Department of Agriculture; John A. Dawson of the Economic Council of Canada; John I. Stevens, Canadian representative to the Kennedy Round of tariff negotiations; and Bert Hargrave, administrator and owner of one of the largest ranches in Canada, located in southern Alberta.

The program included several sessions of colloquy between the speakers and invited guests. Among the guests were the Honorable Joe Green, federal Minister of Agriculture, and a Deputy Minister, S. B. Williams; the Honorable H. E. Strom, provincial Minister of Agriculture, and members of his department; James Bentley, President of the Canadian Federation of Agriculture, and Paul Babey, President of the Farmer's Union of Alberta.

University-City liaison committee established

A Liaison Committee between The University of Alberta and the City of Edmonton has been established to facilitate the study and solution of problems of mutual concern. Dr. Walter H. Worth, Vice-President for Campus Planning and Development, has been named chairman of the Committee, to be made up of representatives of the University, and four of the City.

The Committee, which will function on a continuing basis, will study such problems as transportation (both public and private), basic utilities, and the University's physical expansion. It will identify problems, examine them, and, as needed, make referrals to appropriate personnel in the two organizations for further study.

AUTHORIZED AS SECOND CLASS MAIL BY THE POST
OFFICE DEPARTMENT, OTTAWA, AND FOR PAYMENT
OF POSTAGE IN CASH. POSTAGE PAID AT EDMONTON.

University representatives are: Dr. Walter H. Johns, President of the University; Dr. Worth; W. A. Hiller, Director of Campus Development; and R. E. Phillips, Director of Physical Plant.

City representatives are Dr. P. F. Borgen, Chief Commissioner; S. J. Hampton, Commissioner; D. B. Menzies, Commissioner; and Clive Rodgers, City Planner.

Dr. Borgen is Vice-Chairman of the Committee, and E. R. Sheddon, Assistant to the President of the University, is Secretary.

Summer courses in Europe

The Department of Extension has arranged a program of summer courses at three of Europe's leading universities. Courses of general interest to Albertans will be offered at the Universities of Edinburgh, Oxford, and Poitiers at Tours, France. There will be ample free time for travel and relaxation.

At Edinburgh, courses will deal with English language and literature, political and social studies, and Scottish history. Students may register for one week or two weeks between August 18 and 31, a period which coincides with the Edinburgh Festival.

At Oxford, the program is divided into two sections: one will deal with social and political trends in British society, and the other, of particular interest to businessmen, will deal with the organization and administration of industry in Britain. The courses will be given August 8 to 22.

At Tours, the courses are designed for foreign students at a variety of educational levels, and may be taken for university credit. Courses include French conversation, grammar, and vocabulary on the first levels, and French civilization, literature and culture at the higher levels.

Arrangements also are being made for a program in fine art.

Application forms and further information may be obtained from the Department of Extension, telephone 439-2021.

Visitors

Dr. Jean Nelson, medical officer at the Girls' Detention Home and consulting paediatrician with the City Health Department, presented "A Physician's View of Juvenile Delinquency" to the University Philosophical Society and the Alberta branch of the Humanities Association of Canada, on December 21.

Dr. D. M. Caughey of the Scientific Research and Development Laboratories, Northern Electric Company, Ottawa, conducted a seminar here on December 8, as guest of the Department of Electrical Engineering. His topic was "Computer Simulation of Whole Semiconductor Devices".

Dr. James G. Anderson, Research Professor in Educational Administration at the

University of New Mexico, was a guest lecturer in the Department of Educational Administration last month. He met with staff and students in a series of seminars dealing with organizational theory.

M. Kwizak of the Central Analysis Office, Meteorological Branch, Montreal, spoke on "The Primitive Equations Model" at a meeting of the Canadian Meteorological Society held at the University, November 30.

Dr. Kenneth Hammond, Professor at the University of Colorado, was guest lecturer at the Centre for Advanced Study in Theoretical Psychology in late November. He conducted a series of seminars in the Distinguished Visiting Scholars program.

Professor Keith Schrader of the University of Missouri, Columbia, was a visitor to the Department of Mathematics December 5 and 6. He spoke to the Colloquium on "Existence and Uniqueness of Solutions to Boundary-Value Problems for Second Order Ordinary Differential Equations."

Swimming Pool hours

The Winslow and Christian Hamilton Memorial Swimming Pool is open to students and faculty on week-day afternoons from 5 to 6 p.m. and from 8:30 to 10 p.m. in the evenings. On Saturdays and Sundays, the pool is open from 1 to 5 p.m.

Times set aside for the children of faculty members to make use of the facilities are Wednesday, from 8:30 to 10 p.m., and Saturday and Sunday afternoons from 1 to 3 p.m.

Privilege cards must be purchased by faculty members and their families before they are allowed to use the pool and other facilities in the Physical Education Building. Cards are \$5.00 for faculty members, \$3.00 for spouses and \$2.00 for children. These are available in the general office of the Physical Education Building.

Students need only present their student cards at the equipment room wicket to gain admission to the pool. Student spouse cards are \$2.00.

Rooms for visitors offered

Six guest rooms are available in the new Students' Union Building, as overnight accommodation for properly sponsored visitors to the campus. Reservations may be made with Mrs. Paine at 4271. Meeting room and catering enquiries may be made at the same number.

Personal notices

Staff members may forward notices to reach the Editor two weeks prior to publication. They must be typed, and not exceed 35 words (including heading). Advertisements received will be published at the Editor's discretion.

WANTED TO RENT—Two bedroom house in the vicinity of the University, for one year lease. Dr. D. A. Craig, local 3819, or 439-1269.
